Please get in touch well before making a formal application for financing, as we can offer helpful advice and guidance.

Introduction

Over the past six years the New Zealand Film Commission (NZFC) has provided core support funding for guilds/industry organisations. Funding has helped support the guild/industry organisation network, build and develop capacity, and deliver a wide range of services for their members and the wider industry.

The guilds/industry organisations represent the collective voice of the industry. The NZFC is committed to continue providing core support funding to guild/industry organisations for the next three years. This funding will enable the guilds/industry organisations to prioritise the needs of their members and contribute to the NZFC's ability to engage strategically across the film sector.

The majority of this funding is allocated for above the line guilds/industry organisations who represent producers, directors/editors and writers. The goal of this funding is to support NZ's content creators to activate higher production levels. A smaller amount of funding will also be allocated for below the line guilds/industry organisations who support the health and safety, contractual rights and skills needs across the industry. The goal of this funding is to support NZFC talent pathways and career progression.

Guild/Industry Organisation Core Support Overview

The NZFC has a total of up to \$320,000 per financial year, available as a grant, for the next three years (July 2019 – June 2020, July 2020 – June 2021, July 2021 – June 2022) to commit towards guild/industry organisation core funding support.

The NZFC invites applications from above the line guilds/industry organisations to apply for a core funding grant of up to \$85,000 per financial year, for up to three years. Below the line guilds are invited to apply for core funding of up to \$65,000 per year, for up to three years.

Please note: as this funding is committed for up to three years, there will not be another application call for Guild/Industry Organisation Core Funding support until 2022.
