April 2021

Please read these guidelines carefully as they set out important eligibility and assessment criteria and are intended to help you deliver the strongest application possible.

Introduction:

Te Tumu Whakaata Taonga The New Zealand Film Commission (NZFC, we, our) is committed to ensuring New Zealand has a successful screen industry. We want to empower and attract distinctive and diverse screen productions and support stories that are high impact, authentic and culturally significant.

When New Zealand entered Alert Level 2 on 21 March 2020, many NZFC-funded and New Zealand Screen Production Grant (NZSPG) productions were suspended. These projects included long and short form productions, television and film; and were in various stages of production: financing or pre-production, filming and post-production.

The impact of COVID-19 and the losses and hardships experienced by the New Zealand screen industry as a result of COVID-19 is significant. The NZFC is here to assist the screen industry to adapt and recover from the economic and related effects of the pandemic.

Screen Production Recovery Fund Overview

On 1 July 2020, the New Zealand Government announced the Screen Sector Recovery Package. This package includes \$13.4M to support NZFC-funded and NZSPG – New Zealand productions that have been shut down, delayed or otherwise impacted by COVID-19 restrictions.

The Screen Production Recovery Fund (the Fund) is managed by the NZFC and will support selected individual screen productions to be completed, delivered and screened, help rebuild the New Zealand screen industry and ensure that New Zealand stories continue to reach audiences.

The Fund is available for applications from long form and short film productions that require additional funding to cover expenses whether incurred or reasonably anticipated resulting from the interruption to production caused by COVID-19. It will also seek to assist selected productions to return to their respective stages of production, COVID-19 restrictions permitting.

The NZFC reserves the right at any time to review and vary the conditions of the guidelines.

The Fund is operative until 30 June 2021. Applications can be submitted up to 30 April 2021. Productions requiring a provisional NZSPG-New Zealand certificate to be eligible to apply to the Fund should carefully consider the timeframe for application

and approval for a provisional certificate to ensure they meet the 30 April 2021 deadline. Please refer to the NZSPG-New Zealand Criteria 1 July 2017 (link [here](#)).

How the NZFC will make a decision

The Fund is a special purpose discretionary fund that has been established to respond to significant disruption caused by COVID-19. The Fund will be administered entirely at the discretion of the NZFC. For the avoidance of doubt, when applying for funding from the Fund (Funding), you acknowledge that your eligibility for Funding, and the quantum of Funding you are granted, will be determined solely by the NZFC.

The NZFC will assess each application in context and on its merits. In addition to the eligibility criteria and the criteria in these guidelines, the NZFC may also have regard, as appropriate to the application, to the purpose of the Fund, the number of current applications, the future pipeline of applications, other support available and any other matter that the NZFC considers is relevant in all of the circumstances.

For the avoidance of doubt, even in circumstances in which you can demonstrate you are eligible for Funding, you acknowledge that there is no certainty of Funding (whether in whole or in part), and no obligation on the part of the NZFC, to pay the full (or any) amount of Funding for which you may be eligible.

In all cases, the decision of the NZFC is final.

We are here to help

Screen Production Recovery Fund Conditions

If you are successful in applying for Funding, as a condition of receipt of Funding you must first enter into an agreement, and/or a variation to an existing agreement, with NZFC, on terms acceptable to the NZFC (Grant Agreement). In the event of any inconsistency between these Guidelines, the NZFC COVID-19 Policy and the Grant Agreement, the terms of the Grant Agreement will prevail.

The Funding will be provided as a grant. A grant does not need to be repaid unless you breach certain conditions of the Grant Agreement. Because grants are subject to GST, if you are GST registered, GST will be added to the grant when it is paid.

By applying for Funding, you agree that:

- you will not make any application for the NZSPG-New Zealand in respect of any QNZPE incurred by you in respect of which you receive Funding as determined by the NZFC in its sole discretion; and

- if and to the extent that you receive Funding and receive, or are eligible to receive, the NZSPG-New Zealand in respect of the same QNZPE, you must repay the Funding as contemplated by the Grant Agreement.

On delivery of the production, you will be required to provide a cost report to the NZFC detailing how the Funding you received was spent on COVID-19 related expenses. The NZFC reserves the right to audit your expenses and productions will be required to return any Funding to the NZFC as specified in the Grant Agreement including Funding that:

- relates to expenses that have been funded by NZ On Air or another government agency in some other manner;
- you recover from another source such as insurance or a completion guarantee;
- has been spent on expenses that are not authorised by the Grant Agreement;
- has been spent on expenditure that was not included in your application for Funding and you have not obtained the NZFC's prior approval to apply the Funding to that expenditure; or
- has not been spent.

Please be aware that if you receive \$100,000 or more in Funding or if you successfully apply to the SPRF more than once in respect of the same production, the NZFC will complete an audit of the expenses associated with the Funding.
